

## GENERAL TERMS AND CONDITIONS

1. Introduction. The following terms and conditions (the “Terms and Conditions”) are incorporated by reference into the Master Software License and Services Agreement (the “Agreement”) between you (“Client”) and Transaction Data Systems, Inc., and/or its subsidiaries and affiliates (“TDS”). The Agreement and these Terms and Conditions govern your access and use of TDS’s software, solutions, applications, services, and other products (“Services”). By using the Services, Client agrees to these Terms and Conditions. Capitalized terms not defined herein shall have the meaning ascribed to such terms in the Agreement. For the sake of clarity, the term “Agreement” shall include these Terms and Conditions.

### 2. Software.

- a. The Software includes the following: (i) object code in machine readable form; (ii) required licenses to any third-party software embedded in the Software; and (iii) all documentation and specifications for the Software.
- b. Subject to the terms and conditions of the Agreement, the following rights and privileges are granted to Client under the License: (a) to use the Software at the Permitted Locations and (b) to make up to five (5) copies of the Software, or any part of the Software, for Client's in-house use. Client may not use the Software, or any copy, modification or merged portion thereof, in whole or in part, except as expressly provided in the Agreement.
- c. Client may not sub-license, assign, or transfer the License or the Software, or any part thereof, except as expressly provided in this Agreement or with the written consent of TDS. Any attempt otherwise to sub- license, assign or transfer any of the rights, duties or obligations hereunder is void. If Client transfers possession of any copy, modification, or merged portion of the Software to another party, Client’s license hereunder is automatically terminated.
- d. Client will not: (a) decompile, disassemble, or otherwise reverse engineer the Software; (b) attempt to derive the source code form of the Software; (c) intentionally remove or materially alter any trademark, copyright, product identification or other proprietary notices contained in the Software; or (d) create a derivative work of any part of the Software.
- e. Client is required to subscribe to Support Services in order to maintain the License and to use the Software. The License shall automatically terminate, with no further action by TDS, in the event the Support Services are terminated (including termination by TDS for Client’s failure to timely pay for the Support Services).

### 3. Hardware.

- a. New Hardware may be returned for a refund or replacement, provided that Client returns the Hardware to TDS within forty-five (45) days of the original shipment date. All items returned must be in the original packaging and in “like new” condition, with all components and accessories that were shipped with the original purchase. No refunds or exchanges will be permitted after the forty-five (45) day window has expired.
- b. Any Hardware that is returned must be sent back to the TDS location from which it was shipped.
- c. Unless the Hardware is defective, Client shall pay TDS a 20% restocking fee for any items sent back to TDS for a refund or replacement (based on the original sales price of the returned items).
- d. The following Hardware related fees are not refundable at any time: all shipping and handling charges, equipment set-up charges, and testing and software installation charges.
- e. TDS shall, to the extent permissible, pass through to Client all available original equipment manufacturer warranties on the Hardware.
- f. Client is responsible for maintaining industry-standard security and compliance features and controls on the Hardware and Client’s IT network. Additionally, Client is responsible for installing all necessary patches and updates for any software installed on the Hardware, including, without limitation, the operating system. TDS assumes no responsibility nor liability for any security-related issues, compliance-related issues, patch maintenance, or similar issues related to the Hardware or Client’s IT network. In no event shall TDS have any obligation or liability to Client for any direct, indirect, incidental, special, exemplary or consequential damages (including, without limitation, any loss of data, revenue or profits or business interruption) or other pecuniary loss arising out of Client's failure to meet its responsibilities in this subsection.

### 4. Support Services.

- a. Updates to Software released for general use and covered under this Agreement (the “Updates”) will be provided to the Client at no additional charge during the Term of this Agreement. Client agrees to install all such provided Updates for use within fifteen (15) business days of receipt. TDS agrees that it will support its most current Licensed Software releases and, if applicable, the immediately preceding release. TDS does not guarantee that it can or will support any older releases of its Licensed Software and reserves the right to discontinue all forms of support for discontinued products and/or older versions of Licensed Software.

- b. The Support Services cover the Software licensed under the Agreement, for use on a system that meets the minimum equipment configuration for the licensed Software, as communicated to Client by TDS (the “Minimum Equipment Configuration”), and as updated with the Updates and any other improvements or modifications furnished to Client under this Agreement. In the event that Client installs the Software or any updated version of the Software on a system that does not meet the Minimum Equipment Configuration for such Software, Client agrees that TDS shall not have any responsibility for the performance of the Software on Client’s system.
- c. Support Services do not cover support for software created by third parties nor do they cover equipment and/or peripheral devices attached to the computer or terminals operating the Software. Calls for support where the problem is determined to be a direct or indirect result or consequence of the Software being incorrectly installed, where such installation was not done directly by TDS personnel or not in accordance with TDS installation instructions, may result in non-covered support charges to Client at TDS’ then-current hourly support rates.
- d. TDS may change the terms and conditions associated with the Support Services upon thirty (30) days written notice to Client; such written notice may be provided in generally distributed TDS literature such as a newsletter or as an amendment to the Agreement of these Terms and Conditions.
- e. Client agrees to install and maintain for the duration of this Agreement a stable high-speed internet connection sufficient to allow TDS to provide the Support Services. TDS shall not be liable for failing to provide Support Services due to Client’s unstable or insufficient internet connection.
- f. TDS may interrupt the Services periodically to perform maintenance. TDS will use reasonable efforts to notify Client prior to the performance of any maintenance. There may be times where TDS has to perform emergency maintenance without notice and during peak usage times. Client may not treat any interruption for maintenance as our failure to perform under this Agreement.

#### 5. Confidential Information.

- a. “Confidential Information” means any and all non-public technical and non-technical information provided by either party to the other, including but not limited to ideas, sketches, techniques, drawings, works of authorship, models, inventions, know-how, processes, apparatuses, equipment, algorithms, software programs, software source documents, and formulae related to the current, future and proposed products and services of each of the parties, and including, without limitation, their respective information concerning research, experimental work, development, design details and specifications, engineering, financial information, procurement requirements, purchasing, manufacturing, customer lists, investors, employees, business and contractual relationships, business forecasts, sales, merchandising, marketing plans and information the disclosing party provides regarding third parties. The Parties expressly acknowledge and agree that the transactions contemplated by the Agreement and the terms, conditions, and negotiations concerning the same, constitute Confidential Information.
- b. Each party agrees: (i) not to use any Confidential Information of the other party for any purpose except in the performance of its obligations under this Agreement or as otherwise expressly permitted hereunder; (ii) to disclose such Confidential Information only to employees (or third party subcontractors permitted under this Agreement) who have a need to know such Confidential Information for purposes of this Agreement and who are under a duty of confidentiality no less restrictive than that set forth herein; (iii) to protect such Confidential Information from unauthorized use, access, publication, or disclosure in the same manner that it protects its own similar Confidential Information, but in no event with less care than a reasonably prudent business would exercise; and (iv) to promptly notify the other party of any actual or potential unauthorized access to or use of Confidential Information.
- c. All Confidential Information shall remain the sole property of the disclosing party, and the receiving party shall have no interest in or rights with respect thereto except as expressly set forth in this Agreement.
- d. The foregoing restrictions on disclosure shall not apply with respect to any information which: (i) was or becomes generally known or publicly available through no act or failure to act on the part of the receiving party; (ii) is known by the receiving party without restrictions on disclosure at the time of receiving such information as evidenced by its records; (iii) is rightfully furnished to the receiving party without restrictions on disclosure by a third party without a breach of such third party’s obligations of confidentiality; or (iv) is required by law to be disclosed by the receiving party, provided that the receiving party gives the disclosing party prompt written notice of such requirement prior to such disclosure.
- e. The parties acknowledge and agree that, in the event of any breach of this section, the other party may be irreparably and immediately harmed and unable to be made whole by monetary damages. It is accordingly agreed that the non-breaching party, in addition to any other remedy to which it may be entitled at law or in equity, will be entitled, without notice or bond, to seek temporary restraining orders and permanent injunctions prohibiting disclosure of the Confidential Information by the breaching party and any and all persons acting in concert with the breaching party and/or to compel specific performance of this Agreement.
- f. This subsection will survive any termination of the Agreement for a period of three (3) years. Notwithstanding the foregoing, with respect to trade secrets, the obligations of this subsection shall remain in effect for as long as such information shall remain a trade secret under applicable law.

6. Intellectual Property Rights. All title and rights of ownership in the Software, including, without limitation, patents, trademarks, copyrights, service marks, logos, trade names, trade secrets and all other intellectual property rights, belong to, and remain with, TDS. No such rights are transferred to Client under the Agreement, except for the License on the terms and conditions set forth herein. If Client provides TDS with ideas, suggestions, or proposals (“Feedback”), Client grants TDS a perpetual, non-exclusive, worldwide, royalty-free license that is sub-licensable and transferrable, to make, use, sell, have made, offer to sell, import, reproduce, publicly display, distribute, modify, and publicly perform the Feedback.

7. Backup Services. If Client elects to utilize the TDS Remote Backup Service or other similar data backup service offered by TDS (the “Backup Service”), the following additional terms shall apply with respect to the Backup Service:

- a. The Backup Service, including transmission, storage, viewing and retrieval of data and files is subject to a variety of conditions that make such transmission, storage, viewing and retrieval potentially unreliable, and Client acknowledges that the quality and accuracy of Client's data backup services is dependent on the accuracy, quality, and reliability of Client's data. Accordingly, Client's use of the Backup Service is at Client's sole risk. The Backup Service is provided to Client on an "as is" basis. TDS disclaims all warranties and conditions, express or implied, arising by law or otherwise, with respect to the Backup Service (including, without limitation, any implied warranties of merchantability, fitness for a particular purposes and non-infringement). TDS makes no representation or warranty that: (a) the Backup Service will meet Client's needs; (b) the Backup Service will be timely, error-free, uninterrupted, or virus-free; (c) Client's data and files will not be lost or damaged; or (d) the data on Client's desktop or server will not be lost or damaged. Client acknowledges that any material or data retrieved through the use of the Backup Service is done at Client's choice and risk and that Client will be solely responsible for any damage to its computer system or loss of data that results from the retrieval of such material or data.
- b. In no event shall TDS have any obligation or liability to Client for the cost or procurement of substitute services or data or for any direct, indirect, incidental, special, exemplary or consequential damages (including, without limitation, any loss of data, revenue or profits or business interruption) or other pecuniary loss arising out of Client's use of the Backup Service or Client's loss of data or files stored therein.

8. Fees. Unless otherwise stated in the Agreement, or an exhibit or schedule thereto: (a) fees for Support Services are payable in advance of the applicable support period; (b) fees for any Hardware are due at the time Client orders such Hardware and must be paid prior to TDS shipping such Hardware to Client; and (c) fees for all Software and Other Services are due upon receipt of such Software or Other Services. All invoices shall be in U.S. dollars. TDS reserves the right to increase the fees for the Support Services, Switching, and any Other Services at any time. No such change in fees shall be effective for Client prior to the end of a pre-paid coverage period and shall not be retroactive. Fees are non-refundable.

The fees do not include, and Client must pay, any applicable taxes or applicable third-party fees, including without limitation utility fees, mobile carrier fees, ISP charges, data plan charges, and foreign exchange fees. TDS may, at Client's expense, take steps to collect the fees Client owes.

9. Invoice Dispute. Client may only withhold payment on any invoiced amounts reasonably disputed in good faith under this Agreement. In the event of a disputed invoice, Client shall: (i) provide TDS notice of any disputed amounts, including a reasonable explanation to support the withholding of any disputed amounts; and (ii) timely pay all undisputed amounts on the invoice. Any dispute to an invoice must be brought to the attention of TDS within thirty (30) days of the date of such invoice, otherwise such invoice will be deemed accepted by Client.

10. Suspension of Services. In the event that Client fails to timely pay an undisputed invoice, TDS may suspend Services and access to the Software until Client has timely paid all such undisputed invoices.

11. Data Rights for Pharmacy Programs. As part of the Services offered to Client, TDS may provide certain pharmacy programs to Client and its patients, including, without limitation, programs related to patient safety and education, prescription adherence, prescription refills, medication therapy management, clinical trials, medication history, rebate administration, drug rebates, drug coupon and other patient assistance, and statistical aggregation (the “Pharmacy Programs”). TDS may use Client data, including protected health information when necessary and in accordance with the Business Associate Agreement, to provide the Pharmacy Programs to Client. TDS may also provide such data to business and sub-business associates of TDS to perform services necessary for Patient Programs. TDS may perform patient outreach to Client's patients to drive successful patient adherence, education and outcomes. Clinical Programs sponsored by health insurance companies may require TDS to provide patient information related to the health insurance company's beneficiaries to the health insurance company on behalf of Client for payment activities or health care operations. TDS may also provide patient information to business and sub-business associates of Client to perform data aggregation services necessary for Clinical Programs. Client may opt-out of Clinical Programs at any time by providing written notice to TDS of its desire to not participate in such Clinical Programs.

Client represents and warrants that it has its patients' express consent to allow TDS to use the patients' individually identifying information and protected health information to deliver or cause to be delivered calls and unencrypted messages to such patients, by using an automatic telephone dialing system or an artificial or pre-recorded voice or other means, for any and all purposes, including Pharmacy Programs, Clinical Programs, marketing and advertising care alternatives and other benefits, products, and services that may be of interest. If Client's patients have not provided or withdraw their consent to such calls or messages, Client shall immediately notify TDS. Client shall indemnify, defend, and hold

harmless TDS and its employees, directors, officers, agents, and board members against all claims, fines, losses, penalties, damages, costs and expenses that arise out of, result from or are attributable to Client's breach of the warranty and obligations set forth in this paragraph.

Client agrees that it is solely liable for the services it provides in a Clinical Program, and waives and releases TDS from all claims, liabilities, losses, damages, and injuries incurred by a patient or third-party arising out of a Clinical Program.

13. De-Identified Data. TDS may use protected health information to create de-identified information ("De-Identified Information") in accordance with the applicable provisions of 45 C.F.R. § 164.514, and may use and disclose such De-Identified Information: (1) for the purposes described in the Agreement; and (2) to fulfill any legal responsibilities of Client and/or TDS. TDS may also use and disclose such De-Identified Information for any purpose and in any manner consistent with applicable law and may disclose such De-Identified Information to a third party for such third party's own use; provided, however, that: (1) TDS will not re-identify De-Identified Information and (2) TDS will take reasonable steps to ensure that its workforce, subcontractors and third parties that receive De-Identified Information do not re-identify De-Identified Information.

14. Diagnostics. Hardware and Software provided by TDS may report various diagnostic data to TDS. Diagnostic data is used only to keep the Hardware and/or Software and up-to-date, detect, diagnose, and fix problems, and also make product improvements. Client is solely responsible for its use of the outbound communication features. Client warrants that it has received permission from its customers to send voice and text communications to mobile devices. Client affirms that it has not purchased and is not using a customer call list to send outbound communications through the Software.

"Surescripts Data" means any data or information provided to TDS, its Clients and End Users by or through RelayHealth by Surescripts as part of the Commercial E1 Service, including statistics collected by Surescripts regarding transactions processed by the Surescripts Network, test data, test cases, configuration information, and problem description and resolution information; provided, however, that it does not include any data sent by TDS, its Clients or End Users to Surescripts through RelayHealth.
- b. Message Transmission and Content. Client shall comply with Applicable Law. Client shall ensure (a) that each end user of Client authorized to use the Commercial E1 Service meets the definition of End User set forth above; and (b) that each End User is identity proofed in accordance with industry standards to Surescripts' reasonable satisfaction, pursuant to standards that Surescripts may issue from time to time. Client shall further ensure that each End User is authenticated in accordance with procedures compliant with a national industry standard recognized by Surescripts in its reasonable discretion.
- c. Firewall. Client shall not use the Surescripts Data provided by Pharmacy Benefit Manager Data Sources to promote or encourage TDS or its clients maintaining pharmacy benefit manager services or to augment TDS's or Client's own eligibility or medication history records. Client and Client's End Users shall comply with any privacy and patient consent policies of Surescripts related to the delivery of Private Information and/or PHI as may be published by Surescripts from time to time and are provided to RelayHealth. Client shall use commercially reasonable efforts to implement any such policies within ninety (90) days following TDS's receipt of such policies from RelayHealth. In the event that TDS or Client do not implement such policies within ninety (90) days of receipt of such policies from RelayHealth (which shall be no more than thirty (30) days after RelayHealth's receipt of such policies from Surescripts), then Surescripts shall immediately suspend the Commercial E1 Service responses for such applicable Pharmacy Benefit Manager Data Source.

Surescripts may share Client's data with other Pharmacy Benefit Manager Data Sources to the extent necessary to fulfill the terms and conditions of the Commercial E1 Exhibit. - f. Limitations of the Surescripts Network. Surescripts uses available technology to match patient identities in order to provide the Commercial E1 Service. Because patient information is maintained in multiple places, not all of which are accessible to Surescripts, and because not all patient information is kept in a standard fashion or is regularly updated, it is possible that false matches may occur or that there may be errors or omissions in the information provided by Surescripts from Pharmacy Benefit Manager Data Sources. Surescripts is not a health plan, health care provider, or prescriber. Neither Surescripts nor any Pharmacy Benefit Manager Data Source provides any representations or warranties with respect to the accuracy or completeness of such information. Pursuant to the foregoing, Client and End Users acknowledge that the Surescripts Data provided by Surescripts from Pharmacy Benefit Manager Data Sources may not be complete or accurate, and hereby releases and holds harmless, RelayHealth, Surescripts and the Pharmacy Benefit Manager Data Sources from any liability, cause of action, or claim related to the completeness or lack thereof of such Surescripts Data.

For the avoidance of doubt, the indemnification obligations outlined in the preceding sentence shall not be subject to any limitation of liability otherwise provided for.

TDS shall indemnify, defend, and hold harmless Client against all liabilities, damages, losses, costs or expenses resulting from any suit, claim, or proceeding (a "Claim") alleging that Client's use of TDS's intellectual property violates or infringes a third-party's intellectual property rights if: (a) Client promptly notify TDS in writing of the Claim; (b) gives the TDS sole authority, at the TDS's expense, to direct and control the defense and any settlement and compromise negotiations; provided, however, that Client shall have the right to participate at Client's expense in settlement and compromise negotiations.; and (c) Client provides TDS, at TDS's expense, with such disclosure and assistance of Client as may be reasonably required to defend any such Claim. Any settlement by TDS of a Claim under this Section, including a settlement that requires any changes to the services or equipment must be approved by Client, with such approval not to be unreasonably withheld.

- h. Termination. RelayHealth may terminate the Commercial E1 Service immediately in the event that Surescripts is no longer performing the Commercial E1 Services or the terms of the agreement between RelayHealth and Surescripts pursuant to which RelayHealth may resell the Commercial E1 Services are no longer in force or effect.

18. FairCom Terms and Conditions. If Client's use of the Software utilizes the FairCom database software (the "FairCom Technology"), the following additional terms and conditions shall apply:

- a. Deployment. Each copy of FairCom Technology deployed will be authorized for use in one (1) single instance, either on a physical machine or in a virtual machine.
- b. Export Restrictions. Access to and deployment of FairCom Technology is granted with the specific understanding and requirement that responsibility for ensuring full compliance with all applicable U.S. and foreign export laws and regulations is being undertaken by Client. This includes an obligation to ensure that any individual receiving access who is not a U.S. citizen or permanent U.S. resident is permitted access under applicable U.S. and foreign export laws and regulations. In the event Client is uncertain whether Client may lawfully obtain access to the FairCom Technology or Deploy any file created with the FairCom Technology, Client acknowledges its obligation to consult with legal counsel to determine whether access is lawful. Client understands and acknowledges its obligations to make a prompt report to FairCom and the appropriate authorities regarding any access to or use of the FairCom Technology or any file created with the FairCom Technology that may be in violation of applicable U.S. or foreign export laws or regulations. Client will hold FairCom and TDS harmless for any breach by Client of any U.S. or export laws and regulations.
- c. Warranty. FairCom Technology is licensed "as is" and FairCom disclaims any and all warranties, whether express or implied, including, without limitation, any implied warranties of merchantability or fitness for a particular purpose to all persons or users.
- d. Liability. Client unconditionally, irrevocably and completely releases FairCom from any and all liability, damages or claims.
- e. Limited Use. FairCom Technology is authorized for use only with the Software. Renting, leasing or sharing of FairCom Technology is prohibited. Redistribution of FairCom Technology in any form or for any purpose is prohibited.
- f. Notification. Use of FairCom Technology is subject to a separate license agreement between TDS and FairCom, including all the terms, conditions, limitations, restrictions and disclaimers therein; provided, however, that Client's acceptance of these terms and conditions does not make Client a third-party beneficiary thereof and cannot enforce the terms of the agreement between FairCom and TDS.

19. Medicare Plan Finder Tool Terms and Conditions. If Client's use of the Services utilizes the Medicare Plan Finder Tool subscription (the "Medicare Plan Finder"), the following additional terms and conditions shall apply:

- a. Client acknowledges that Client is familiar and shall comply with the requirements stated in 42 C.F.R. §§ 422 et seq. (Medicare Advantage Program) and 42 C.F.R. §§ 423 et seq. Client agrees to keep informed of and abide by all relevant federal and state regulations and all marketing guidelines established by the Centers for Medicare and Medicaid Services ("CMS").

20. VrxAssist Term. The initial term for VrxAssist is six (6) months. Client's VrxAssist subscription will automatically renew for an additional six (6) month term unless terminated in any manner outlined in the Agreement or these Terms and Conditions.

21. Acceptable Use. Client agrees not to: (a) use the Services for service bureau or time-sharing purposes or in any other way allow third parties to exploit the Services; (b) provide Client's passwords or other log-in information to any third party; (c) share non-public features or content of the Services with any third party; or (d) access the Services in order to build a competitive product or service, to build a product using similar ideas, features, functions or graphics of the Services, or to copy any ideas, features, functions or graphics of the Services. In the event that TDS suspects any violation of these requirements, TDS may suspend Client's access to the Services without advanced notice, in addition to any other remedies TDS may have. TDS is not required to take any action for suspected violations, but may take any action that TDS sees fit.

22. Unauthorized Access; Export. Client agrees to take reasonable steps to prevent unauthorized access to the Services, including protecting Client's passwords and log-in information. Client also shall not permit any third party to access or use the Services in violation of any U.S. law or regulation. If Client suspects or knows of any unauthorized access or use of the Services, Client shall notify TDS immediately so that TDS may take action to stop any security breach. Client is responsible and liable for any use of the Services through Client's account whether authorized or unauthorized. Client will not export any software that TDS provides or otherwise remove it from the United States except in compliance with all applicable U.S. laws and regulations. Without limiting the generality of the foregoing, Client will not permit any third party to access or use the Services in, or export such software to, a country subject to a United States embargo (presently, Cuba, Iran, North Korea, Sudan, and Syria).

23. Termination for Material Breach. TDS or Client may terminate the Agreement in its entirety upon written notice to the other in the event that the other party is in default of the performance of any material obligation imposed under this Agreement and the default has not been substantially cured to the satisfaction of the non-defaulting party within thirty (30) days following receipt by the defaulting party of written notice of default (each, an “Event of Default”). An Event of Default specifically includes, but is not limited to, a breach of Client’s obligations to pay for the Software or Services.

24. Termination for Insolvency. Either Party may terminate the Agreement without notice if the other Party becomes insolvent, makes or has made an assignment for the benefit of creditors, is the subject of proceedings in voluntary or involuntary bankruptcy instituted on behalf of or against such Party, or has a receiver or trustee appointed for substantially all of its property.

25. Effect of Termination. The termination of this Agreement, whether for breach or otherwise, shall be without prejudice to any claims for damages or other rights against the other party that preceded termination. Any provision of this Agreement which can reasonably be construed to survive the expiration or termination of this Agreement shall survive such expiration or termination and shall not relieve either party of its obligations to observe, keep and perform those surviving provisions.

26. Client Data (Post-Termination). In the event the License and/or this Agreement is terminated or any reason, TDS shall provide Client, in a mutually agreeable industry standard format, with electronic access to all prescription drug order files, including refill information and patient medication records.
